

Who is Evolution?

- Leading Supplier of Oilfield Facility and Production Equipment – Specializing in Custom Design and Packaging – Built to Custom Order!
- **In Business for Over 20 Years** – Designing / Project Management / Fabricating
- Head Office – 311, 1117 – 1st Street SW, Calgary, AB
- Fabrication Shop in SE Edmonton – Focused on Larger HZ Vessel Packages / Lineheaters / FWKO's – 65,000 ft² – Large Cranes – 4 Acres of secured yard space.
- Fabrication Shop in Stettler, AB – Focused on Large HZ Separator Packages / Multi Well Group/Test Packages along with Stand Alone Separator Packages.
– Approx. 13,260 ft² of fabrication space.

Our Team

Garth Gazdewich

- Employed with Evolution since February 2014
- Previously with Another Industry Supplier for 8.5 Years
- Sales of all Evolution Built and Represented Products
- Purchaser & Marketer of Surplus Equipment
- Principal Rob Lang
- Drafting / Applications Personnel

Quality Control

- Maintained thru ABSA QMS Certificate of Authorization Permit Holder. AQP piping and vessel construction QC Programs.
- In addition to the code requirements, each product is subject to rigorous in-house inspection. This inspection includes checks for all areas of fabrication, general operability and ease of maintenance.

Authorized

- Construct ASME B31.1 Power Piping (Shop & Field)
- Construct ASME B31.3 Indirect Fired Heater Coils (Shop & Field)
- Construct ASME B31.3 Process Piping (Shop & Field)
- Construct ASME Section VIII-1 Pressure Vessel (Shop)
- Construct Miniature Vessels in Accordance with CSA B51 (shop)
- Manufacture Category A, E, H Fittings in accordance with CSA B51 (shop)
- Repair ASME B31.1 / 3 Power Piping, Indirect Fired Heater Coils, Process Piping (Shop & Field)

FACILITY – STETTLER ALBERTA

- Allied Vessel Fabrication
- 15,560 ft² Combined Shop Space
- 5 Acres of Fenced Yard
- Secure / Monitored for Fabrication & Storage
- Northeast Corner at Highway 56 North / Ring Road – easy shipping access
- Focused on our core business – Fabrication Custom Production Equipment Packages / Pressure Vessels / Pipe Fabrication / Structural Welding
- Shop is certified for Stainless Steel piping packages (ie. Source Water Applications)

FACILITY – STETTLER, AB – cont

- Main Shop

- 2 x 20 ton bridge crane, 24' hook height
- 2 x 1 ton station jib cranes
- 30' wide x 24' high and 20' x 20' doors
- Make up air with station venting
- Pile supported rail center section for heavy fabrication
- Multiple welding stations
- Submerged ARC, Gantry mounted / Power rollers / Positioner-Sub ARC

- Finishing Shop

- Dedicated blast and paint bay
- (2) 20' x 20' doors

- 7000# Forklift
- 30,000# Forklift
- 32' 30,000# Gooseneck
- Rig / Portable Welder
- 2250 ft2 office with conference room

EDMONTON FACILITY

- “A” / “U” Stamp
- 65,000 Square Ft
- (6) 10 ton Overhead Cranes - (2) 15 ton Overhead Cranes - (2) 5 ton Overhead Cranes
- 4 Acres Secure yard space for storage
- Submerged ARC; Gantry Mounted / Power Rollers

Authorized:

- Construct ASME B31.3 Indirect Fired Heater Coils (Shop and Field)
- Construct ASME B31.3 Process Piping (Shop and Field)
- Construct ASME Section VIII-1 Pressure Vessels (Shop)
- Repair ASME B31.3 Indirect Fired Heater Coils (Shop and Field)
- Repair ASME B31.3 Process Piping (Shop and Field) Alter ASME B31.3 Process Piping (Shop and Field)
- Repair ASME Section VIII-1 Pressure Vessels (Shop and Field) Alter ASME Section VIII-1 Pressure Vessels (Shop and Field)

Why Evolution?

- Over 20 years in Design, Fabrication of Facility and Production Equipment.
- We will work with you on custom “built-to-order” or surplus equipment to meet your budgetary needs.
- Exceptional Customer Service and Quality Products!

How We Can Assist You & Your Customer's?

- Review and confirm scope of supply for each project
- Adhere to industry codes including customer specific inspections, testing, procedures, etc.
- Provide Project Management updates on all equipment being fabricated.

Production & Facility Equipment We Supply!

- Separators: 8" – 120" Dia. Vertical or Horizontal, 125 to 1440psi, 2 or 3 phase, Sweet or Sour service, New, Used or Reconditioned separator/tank combinations
- Treaters & FWKO's: 4' – 12' Dia. Vertical or Horizontal, 50 – 100psi, 2 or 3 phase, Sweet or Sour service (new, used or reconditioned)
- Flare Knockout: 30" – 120." Horizontal, atmospheric – 100psi, Sweet or Sour service (new, used or reconditioned)
- Tanks: 25 to 3000 BBL, Sales / Production Tanks, single or double wall, flat, slope or cone bottom, dressed to specifications (new, used or reconditioned)
- Multi Well Group Test Packages: 16" – 48" , Sweet or Sour service–150/300/600 ansi Designs.

Production & Facility Equipment We Supply!

- Pumping Units: 80's – 1824's, all make and models, complete pumpjack installation and service, parts, accessories and components (new, reconditioned and field run)
- Line Heaters: 0.25 – 12.0MMTBU/hr, skidded and housed, sweet or sour service, (new, used or reconditioned)
- Dehydrators: 12" – 48", Std or Split Tower, 720 to 1440 PSI, 2 or 3 Phase, Sweet or Sour Service (new, used or reconditioned)
- Compressors: 5 – 3200HP, all makes and models, screw, reciprocating & vanes, Sweet or Sour service, NG or Electric Driven Packages (new, used or reconditioned)
- Various Other Misc Equipment

Thank You!
