About us

F11 Piling Solutions is a 24-hour speciality foundations contracting company based out of Sexsmith Alberta and the city of Calgary. We offer a wide range of foundation solutions as a full-cycle construction service from concept through to commission. Our team has executed the construction of thousands of piling projects across western Canada.

Our Services

- *Driven Piling
- *Helical/Screw Piling
- *Shoring, Earth Retention Systems, Sheet Piling
- *Predrilling
- *Pile Extraction
- *Crane and Picker Work
- *Welding & Fabrication
- *Cutting and Capping
- *Bridge Construction & Repairs
- *Heavy To Light Load Trucking Services

Driven Piling

At F11, we install driven piles with a fleet of modern and well maintained equipment including Junttan hydraulic piling machines, we pride ourselves on completing foundation installations safely and efficiently in a variety of challenging site conditions. Pile types we we install within the driven scope include.

-Pipe Piles

-H-Piles

-Sheet Piles

-Timber Piles

Helical (Screw) Piling

F11 has has been involved in the construction of an abundance of helical piles encountering a large variety of ground conditions, we literally do helical projects on a weekly basis.

Sheet Piling, Shoring retention Systems

F11 has provided numerous earth retention system options to our diversified clientele including:

- *Sheet Pile Walls

- *Coffer Dams

- *Mechanically Stabilized Earth Walls

Drilling

We are equipped with drill ranging that can auger from 2" diameter holes to 2m in diameter using a fleet of both wheel and track mounted drilling units to suit your needs.

Pile Extraction

Pile extraction is the process of removing piles from the ground. F11 has the ability and expertise to remove both helical and driven piles, this is done by using vibratory or rotary drive heads.

Welding and Fabrication

F11 will accomplish numerous welding and fabrication services including:

- *Helical Pile Fabrication
- *Pile Splicing
- *Cutting and Capping
- *Structural Steel Fabrication and Installation

Safety

F11 is in good standing with the following industry compliance organizations.

*Complyworks

*ISNetworld

*CWB Certified

*COR Certified

*Avetta

QAQC

Understanding industry is critical for F11 Piling Solutions, aligning with our values of quality, craftsmanship, and reliability.

We are committed to providing all employees – ours and our clients' – a safe, healthy, drug-free work environment. We actively work to minimize our impact on the world around us through the identification, correction, and prevention of health, safety, and environmental hazards. Our team complies with all applicable regulatory requirements and provides adequate resources to ensure the health and safety of our team members as well as the preservation of the environment throughout our projects.

At every level, all of our employees receive external and on-the-job training and mentorship, encouraging continuous learning and awareness for safe work on all projects. Experience and familiarity with industry standards make a difference for these types of projects, which is why our senior staff train and mentor so closely to help newer team members obtain the appropriate knowledge.

F11 Piling uses Site Docs, a safety management platform for both our projects and our staff. This tracks all of the necessary certifications and training required, holding us all accountable for safe work conduct.

Project Profiles

CNRL over 1,100 Piles Installed

Paramount over 810 Piles Installed

Veren Oil over 2000 Piles Installed

Logan Energy over 1800 Piles installed

Whitecap Resources over 868 Piles Installed

Strathcona Resources over 558 Piles Installed

Ovintiv over 654 Piles Installed

Spartan Delta over 810 Piles Installed

Saddle Hills County -lots of smaller sheet pile and bridge projects

We will also be bidding work this year from

TC Energy, Enbridge, Shell, Petronas, Tourmaline, Pembina, Murphy Oil, Advantage, Taqa, Vermilion, Tamarack, Obsidian Energy

Indigenous Inclusion Policy

F11 Piling Solutions LP (F11) is committed to working with Indigenous peoples, communities, businesses, across all facets of our operations. Many of the projects F11 work on are located within Indigenous communities or on their traditional lands. F11 acknowledges that Indigenous peoples have distinct, historic, and varying cultural values across Canada. Recognizing this, we are committed to building mutually beneficial, sustainable, collaborative partnerships. We recognize the significance of community engagement and contributing to the areas we operate in, deeply valuing the connections our clients have formed and continue to nurture with the Indigenous communities where we do business. We understand the significance of cultivating enduring partnerships within these communities and firmly believe that by working together we can effectively support one another. Recognizing this, we are committed to building mutually beneficial, sustainable, collaborative relationships and partnerships with Indigenous Peoples. F11 employees several people of Indigenous status and heritage (we are honored to recognize our Operations Manager April Mattson, a recognized Metis and proud member of Treaty 8 First Nations of Alberta). Given the relatively short duration of our projects, small crew sizes and highly specialized skill set, F11 does not currently hold any labour or service agreements with any specific Indigenous communities. We are however looking forward to building relationships with Indigenous groups within the communities we work in. We would be looking for a letter of support stating our partnership to acquire contracts for services provided by F11. F11 will ensure the Indigenous partnerships share in the success of our projects by way of an agreed upon percentage of the projects gross revenue for F11's scope of the contract. This would be labeled as a separate line item shown as Indigenous Partnership on our bid submissions. By way of giving back, we would also be interested in supporting communities in ways such as social employment and training programs, scholarships, Treaty Days etc. as we continue to build positive relationships. We look forward to a long, healthy and mutually beneficial relationship.
